

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is wrong and biased. Sinclair's use of public airwaves is a privilege that the common tax payer allows them to use. This corporation is abusing their power in order to sway the affects of this critical political campaign.

Cynics may believe that nothing can be done to correct this illegal behavior. But I believe in the story of David and Goliath and I think this blatant attack against presidential candidate Kerry can be thwarted. I also believe that the FCC should intervene and help us accomplished this task.

One wealthy citizen should not be allowed to use public airtime to unfairly and unjustly influence the voters of America at such an important time in our country's history.

The world is supposed to be following America while freedom is on the march throughout the middle east. I believe we need to set the standard and protect the democracy America stands for. Sinclair's actions show why we need to strengthen media ownership rules, not weaken them.

Sincerely,

James J. Murphy
